

Session 4:

Partnership to fight cancer

Nelly Enwerem-Bromson

Director

Division of Programme of Action for Cancer Therapy

Department of Technical Cooperation

IAEA

IAEA

Programme of
Action for
Cancer
Therapy

PACT

OUR GOAL:

To improve cancer
survival in developing
countries

Joint Programme with the World Health Organization:

Advocates an holistic, country-
level, bottom-up approach

Promotes the integration of
radiation medicine
into national cancer
control programmes

Advocates to place cancer on
development agenda

Mobilizes resources for
planning and implementation
of NCCPs

30 May–1 June 2017
Vienna, Austria

60 Years

Atoms for Peace and Development

International Conference on the IAEA Technical Cooperation Programme

Sixty years and *beyond*

Contributing to development

Programme of Action for Cancer Therapy - PACT

Surveillance

Prevention

Early
detection

⇒ X-Rays
⇒ Mammography
⇒ CT Scan

Diagnosis
& treatment

⇒ Nuclear medicine
⇒ Radiation diagnostics
⇒ Radiotherapy

Palliative
Care

⇒ Palliative
radiotherapy

IAEA
Radiation
medicine for
cancer
management
+
Radiation safety

IAEA + PARTNERS
- PACT -
Comprehensive
cancer control approach

WHO/IAEA
Joint Programme
on Cancer Control

Complementing strengths and resources

Access to safe, effective, and affordable cancer services in developing countries.

Fighting cancer through partnerships

- ***imPACT***: Assessing comprehensive cancer control capacities
- ***Partner Model Demonstration Sites***: Integrated partners' assistance in strengthening national cancer control programmes
- ***Training and capacity building***: Strengthening skills of health professionals
- ***Resource mobilization***: Addressing funding gaps for cancer control

Jointly fighting the cancer epidemic
