Mutual Partnership in
Mutation Breeding Products Utilization

Ilham Akbar

Founding Manager

Salewangang Rice Seed Breeding Company Indonesia

SALEWANGANG Co. is a paddy seed producer company at South Sulawesi Indonesia

2015

The first experience to use Sidenuk paddy variety

I was encouraged in utilizing the Sidenuk variety to lift our farmers social economy conditions

Our first Sidenuk seed produced higher yield compared to other varieties sowed at same period

A close-up photograph of rice panicles in a field. The panicles are green and yellow, hanging from the stems. The background is a clear blue sky with some blurred green leaves and other panicles. The lighting is bright, suggesting a sunny day.

Utilizing the Sidenuk seed, our farmers could produced **10 tons of rice** per hectare. Reaching **150% raise** compared to other varieties.

PENANGKARAN

BENIH PADI UNGGUL

KETERANGAN

VARIETAS	: INPARI SIDENUK
TGL. SEMAI	: 23 NOVEMBER 2016

TGL PANEN	: 2017
LOKASI	: KAB. TAKALAR

batan

Cooperative partnership scheme with farmers, local government and research agency. Encouraging farmers as new seed breeders under cooperation with Salewangang Co. In addressing paddy seed needs.

2016
Producing 70 tons of paddy seed, equivalent to 3% of seed demand for the whole province

We are committed to educate the farmers on the economic benefit of Sidenuk seed to raise their lives standard from being traditional farmers to become farmers with strong entrepreneurial skills

Strong mutual partnership with farmers' groups and other stakeholders in utilizing mutation breeding paddy seed is the main key to reach our dreams and our goals...
